ISHP SPRING RESIDENCY PODIUM PRESENTATIONS DAY 1: THURSDAY, MAY 7, 2020		
TIME	PRESENTATION TITLE	PRESENTER
8:00 AM – 8:30 AM	Evaluation of votorans discharged from Boice VA Medical Conter (VAMC) with heart failure diagnosis	Hilary Deragisc (PGY-1)
8:00 AIVI - 8:30 AIVI	Evaluation of veterans discharged from Boise VA Medical Center (VAMC) with heart failure diagnosis	Boise VA Medical Center
8:30 AM – 9:00 AM	Selecting a clinical calculator for vancomycin AUC-based dosing and monitoring: 1-level Bayesian vs. 2-	Todd Conner (PGY-1)
	level 1st order pharmacokinetic methodologies	St. Luke's Magic Valley Medical Center
9:00 AM – 9:30 AM	Development of a pharmacist-managed clozapine clinic	Heather Walser (PGY-2 Psychiatry) Boise VA Medical Center
0.20 414 10.00 414	Evaluation of a clinical pharmacist driven, regional, algorithm-based, adult urine culture follow-up for	Graeson Keisel (PGY-1)
9:30 AM – 10:00 AM	patients in rural and urban emergency departments	Saint Alphonsus RMC
10:00 AM – 10:30 AM 10:30 AM – 11:00 AM	Assessment of acute myeloid leukemia induction outcomes at a community cancer center	Brooke Hueftle (PGY-2 Oncology)
		St. Luke's Cancer Institute
	Evaluation of COPD management in patients recently discharged from the Boise VA Medical Center after	Shelby Lawrence (PGY-1)
	an exacerbation	Boise VA Medical Center
11:00 AM - 11:30 AM	Impact of opioid protocol on patient access to naloxone and morphine milliequivalent-prescribing trends	Caitie Brown (PGY-1 Community) Idaho State University
		Jordan Leach (PGY-1)
11:30 AM - 12:00 PM	Expanding a pharmacist protocol to manage inpatient insulin in the adult critical care population	St. Luke's Health System
12:00 PM - 1:00 PM	60-minute Break	
		Judy Councell, (PGY-1)
1:00 PM – 1:30 PM	Metabolic monitoring of antipsychotics with a population health dashboard	Boise VA Medical Center
1:30 PM – 2:00 PM 2:00 PM – 2:30 PM	Resident pharmacist interventions during hospital teaching rounds: an evaluation of clinical impact and	Nate Reed (PGY-1)
	provider perception	Eastern Idaho Regional Medical Center
	Pharmacist identification of drug-related problems utilizing a co-visit model in a federally qualified health	Jordin Millward (PGY-1 Pharmacotherapy)
	center	Idaho State University
2:30 PM – 3:00 PM	A retrospective analysis of hypertonic saline in neurocritical care patients	Jessica Hagel (PGY-1)
		Saint Alphonsus RMC
3:00 PM - 3:30 PM	Evaluation of a QTc clinical risk score in hospitalized cancer patients with hematologic malignancies	Diana Martinez (PGY-2 Oncology) St. Luke's Cancer Institute
	Feasibility and versatility of the emergency deparment's medication history process at a community	Oliver Withers (PGY-1)
3:30 PM – 4:00 PM	hospital	Kootenai Health
4.00 PM 4.20 PM	Expansion of a collaborative transitions of care program for high risk patients to help improve patient	Shannon O'Rourke (PGY-1 Community)
4:00 PM – 4:30 PM	outcomes	St. Luke's Health System
	DAY 2: FRIDAY, MAY 8, 2020	
TIME		
8:00 AM - 8:30 AM	PRESENTATION TITLE	PRESENTER
8:00 AM - 8:30 AM	The use of a procalcitonin-guided algorithmic approach to de-escalation of antibiotics of septic patients in	Dillon Schenkel (PGY-1)
8:00 AM - 8:30 AM		Dillon Schenkel (PGY-1) St. Luke's Health System
8:00 AM - 8:30 AM 8:30 AM - 9:00 AM	The use of a procalcitonin-guided algorithmic approach to de-escalation of antibiotics of septic patients in	Dillon Schenkel (PGY-1) St. Luke's Health System Madeline Weltzin (PGY-1)
	The use of a procalcitonin-guided algorithmic approach to de-escalation of antibiotics of septic patients in the ICU	Dillon Schenkel (PGY-1) St. Luke's Health System Madeline Weltzin (PGY-1) Saint Alphonsus Regional Medical Center
	The use of a procalcitonin-guided algorithmic approach to de-escalation of antibiotics of septic patients in the ICU	Dillon Schenkel (PGY-1) St. Luke's Health System Madeline Weltzin (PGY-1) Saint Alphonsus Regional Medical Center Alex Lystrup (PGY-2 Pharmacotherapy)
8:30 AM – 9:00 AM 9:00 AM – 9:30 AM	The use of a procalcitonin-guided algorithmic approach to de-escalation of antibiotics of septic patients in the ICU Image: Comparison of a vancomycin area under the curve (AUC) dosing strategy Evaluation of a vancomycin area under the curve (AUC) dosing strategy Assessing patient expectations of pharmacist capabilities and knowledge	Dillon Schenkel (PGY-1) St. Luke's Health System Madeline Weltzin (PGY-1) Saint Alphonsus Regional Medical Center Alex Lystrup (PGY-2 Pharmacotherapy) Idaho State University
8:30 AM – 9:00 AM	The use of a procalcitonin-guided algorithmic approach to de-escalation of antibiotics of septic patients in the ICU Evaluation of a vancomycin area under the curve (AUC) dosing strategy	Dillon Schenkel (PGY-1) St. Luke's Health System Madeline Weltzin (PGY-1) Saint Alphonsus Regional Medical Center Alex Lystrup (PGY-2 Pharmacotherapy)
8:30 AM – 9:00 AM 9:00 AM – 9:30 AM 9:30 AM – 10:00 AM	The use of a procalcitonin-guided algorithmic approach to de-escalation of antibiotics of septic patients in the ICU Image: Comparison of a vancomycin area under the curve (AUC) dosing strategy Assessing patient expectations of pharmacist capabilities and knowledge Image: Comparison of a vancomycin area under the curve (AUC) dosing strategy Feasibility of a chronic obstructive pulmonary disease (COPD) inhaler program in reducing hospital readmissions Image: Comparison of a vancomycin area under the curve (AUC) dosing strategy	Dillon Schenkel (PGY-1) St. Luke's Health System Madeline Weltzin (PGY-1) Saint Alphonsus Regional Medical Center Alex Lystrup (PGY-2 Pharmacotherapy) Idaho State University Audrey Nordness (PGY-1)
8:30 AM – 9:00 AM 9:00 AM – 9:30 AM	The use of a procalcitonin-guided algorithmic approach to de-escalation of antibiotics of septic patients in the ICU Image: Comparison of a vancomycin area under the curve (AUC) dosing strategy Evaluation of a vancomycin area under the curve (AUC) dosing strategy Assessing patient expectations of pharmacist capabilities and knowledge Feasibility of a chronic obstructive pulmonary disease (COPD) inhaler program in reducing hospital readmissions Improving the safety and efficiency of the chemotherapy process in an inpatient setting	Dillon Schenkel (PGY-1) St. Luke's Health System Madeline Weltzin (PGY-1) Saint Alphonsus Regional Medical Center Alex Lystrup (PGY-2 Pharmacotherapy) Idaho State University Audrey Nordness (PGY-1) Kootenai Health Lauren Zupsic (PGY-2 Oncology) St. Luke's Cancer Institute
8:30 AM – 9:00 AM 9:00 AM – 9:30 AM 9:30 AM – 10:00 AM 10:00 AM – 10:30 AM	The use of a procalcitonin-guided algorithmic approach to de-escalation of antibiotics of septic patients in the ICU Image: Comparison of a vancomycin area under the curve (AUC) dosing strategy Assessing patient expectations of pharmacist capabilities and knowledge Feasibility of a chronic obstructive pulmonary disease (COPD) inhaler program in reducing hospital readmissions Improving the safety and efficiency of the chemotherapy process in an inpatient setting Establishing a glycemia management protocol for non-critically ill hospitalized patients with diabetes: a	Dillon Schenkel (PGY-1) St. Luke's Health System Madeline Weltzin (PGY-1) Saint Alphonsus Regional Medical Center Alex Lystrup (PGY-2 Pharmacotherapy) Idaho State University Audrey Nordness (PGY-1) Kootenai Health Lauren Zupsic (PGY-2 Oncology) St. Luke's Cancer Institute Erin Berry (PGY-1)
8:30 AM – 9:00 AM 9:00 AM – 9:30 AM 9:30 AM – 10:00 AM	The use of a procalcitonin-guided algorithmic approach to de-escalation of antibiotics of septic patients in the ICU Image: Comparison of a vancomycin area under the curve (AUC) dosing strategy Assessing patient expectations of pharmacist capabilities and knowledge Image: Comparison of a chronic obstructive pulmonary disease (COPD) inhaler program in reducing hospital readmissions Improving the safety and efficiency of the chemotherapy process in an inpatient setting Establishing a glycemia management protocol for non-critically ill hospitalized patients with diabetes: a quality improvement initiative	Dillon Schenkel (PGY-1) St. Luke's Health System Madeline Weltzin (PGY-1) Saint Alphonsus Regional Medical Center Alex Lystrup (PGY-2 Pharmacotherapy) Idaho State University Audrey Nordness (PGY-1) Kootenai Health Lauren Zupsic (PGY-2 Oncology) St. Luke's Cancer Institute Erin Berry (PGY-1) Eastern Idaho Regional Medical Center
8:30 AM – 9:00 AM 9:00 AM – 9:30 AM 9:30 AM – 10:00 AM 10:00 AM – 10:30 AM	The use of a procalcitonin-guided algorithmic approach to de-escalation of antibiotics of septic patients in the ICU Evaluation of a vancomycin area under the curve (AUC) dosing strategy Assessing patient expectations of pharmacist capabilities and knowledge Feasibility of a chronic obstructive pulmonary disease (COPD) inhaler program in reducing hospital readmissions Improving the safety and efficiency of the chemotherapy process in an inpatient setting Establishing a glycemia management protocol for non-critically ill hospitalized patients with diabetes: a quality improvement initiative Evaluation of the use of ocrelizumab and natalizumab in patients with multiple sclerosis: a retrospective	Dillon Schenkel (PGY-1) St. Luke's Health System Madeline Weltzin (PGY-1) Saint Alphonsus Regional Medical Center Alex Lystrup (PGY-2 Pharmacotherapy) Idaho State University Audrey Nordness (PGY-1) Kootenai Health Lauren Zupsic (PGY-2 Oncology) St. Luke's Cancer Institute Erin Berry (PGY-1) Eastern Idaho Regional Medical Center Hailey Hossfeld (PGY-1)
8:30 AM – 9:00 AM 9:00 AM – 9:30 AM 9:30 AM – 10:00 AM 10:00 AM – 10:30 AM 10:30 AM – 11:00 AM	The use of a procalcitonin-guided algorithmic approach to de-escalation of antibiotics of septic patients in the ICU Evaluation of a vancomycin area under the curve (AUC) dosing strategy Assessing patient expectations of pharmacist capabilities and knowledge Feasibility of a chronic obstructive pulmonary disease (COPD) inhaler program in reducing hospital readmissions Improving the safety and efficiency of the chemotherapy process in an inpatient setting Establishing a glycemia management protocol for non-critically ill hospitalized patients with diabetes: a quality improvement initiative Evaluation of the use of ocrelizumab and natalizzmab in patients with multiple sclerosis: a retrospective review	Dillon Schenkel (PGY-1) St. Luke's Health System Madeline Weltzin (PGY-1) Saint Alphonsus Regional Medical Center Alex Lystrup (PGY-2 Pharmacotherapy) Idaho State University Audrey Nordness (PGY-1) Kootenai Health Lauren Zupsic (PGY-2 Oncology) St. Luke's Cancer Institute Erin Berry (PGY-1) Eastern Idaho Regional Medical Center Hailey Hossfeld (PGY-1) St. Luke's Magic Valley Medical Center
8:30 AM – 9:00 AM 9:00 AM – 9:30 AM 9:30 AM – 10:00 AM 10:00 AM – 10:30 AM 10:30 AM – 11:00 AM	The use of a procalcitonin-guided algorithmic approach to de-escalation of antibiotics of septic patients in the ICU Evaluation of a vancomycin area under the curve (AUC) dosing strategy Assessing patient expectations of pharmacist capabilities and knowledge Feasibility of a chronic obstructive pulmonary disease (COPD) inhaler program in reducing hospital readmissions Improving the safety and efficiency of the chemotherapy process in an inpatient setting Establishing a glycemia management protocol for non-critically ill hospitalized patients with diabetes: a quality improvement initiative Evaluation of the use of ocrelizumab and natalizumab in patients with multiple sclerosis: a retrospective review Evaluation of change in morphine equivalent daily dose (MEDD) after pharmacist intervention for veterans	Dillon Schenkel (PGY-1) St. Luke's Health System Madeline Weltzin (PGY-1) Saint Alphonsus Regional Medical Center Alex Lystrup (PGY-2 Pharmacotherapy) Idaho State University Audrey Nordness (PGY-1) Kootenai Health Lauren Zupsic (PGY-2 Oncology) St. Luke's Cancer Institute Erin Berry (PGY-1) Eastern Idaho Regional Medical Center Hailey Hossfeld (PGY-1) St. Luke's Magic Valley Medical Center Kristin Halla (PGY-2 Am Care)
8:30 AM – 9:00 AM 9:00 AM – 9:30 AM 9:30 AM – 10:00 AM 10:00 AM – 10:30 AM 10:30 AM – 11:00 AM 11:00 AM – 11:30 AM	The use of a procalcitonin-guided algorithmic approach to de-escalation of antibiotics of septic patients in the ICU Image: Comparison of a vancomycin area under the curve (AUC) dosing strategy Evaluation of a vancomycin area under the curve (AUC) dosing strategy Assessing patient expectations of pharmacist capabilities and knowledge Feasibility of a chronic obstructive pulmonary disease (COPD) inhaler program in reducing hospital readmissions Improving the safety and efficiency of the chemotherapy process in an inpatient setting Establishing a glycemia management protocol for non-critically ill hospitalized patients with diabetes: a quality improvement initiative Evaluation of the use of ocrelizumab and natalizumab in patients with multiple sclerosis: a retrospective review Evaluation of change in morphine equivalent daily dose (MEDD) after pharmacist intervention for veterans prescribed high dose opioids	Dillon Schenkel (PGY-1) St. Luke's Health System Madeline Weltzin (PGY-1) Saint Alphonsus Regional Medical Center Alex Lystrup (PGY-2 Pharmacotherapy) Idaho State University Audrey Nordness (PGY-1) Kootenai Health Lauren Zupsic (PGY-2 Oncology) St. Luke's Cancer Institute Erin Berry (PGY-1) Eastern Idaho Regional Medical Center Hailey Hossfeld (PGY-1) St. Luke's Magic Valley Medical Center
8:30 AM – 9:00 AM 9:00 AM – 9:30 AM 9:30 AM – 10:00 AM 10:00 AM – 10:30 AM 10:30 AM – 11:30 AM 11:00 AM – 11:30 AM 11:30 AM – 12:00 PM 12:00 PM - 1:00 PM	The use of a procalcitonin-guided algorithmic approach to de-escalation of antibiotics of septic patients in the ICU Evaluation of a vancomycin area under the curve (AUC) dosing strategy Assessing patient expectations of pharmacist capabilities and knowledge Feasibility of a chronic obstructive pulmonary disease (COPD) inhaler program in reducing hospital readmissions Improving the safety and efficiency of the chemotherapy process in an inpatient setting Establishing a glycemia management protocol for non-critically ill hospitalized patients with diabetes: a quality improvement initiative Evaluation of the use of ocrelizumab and natalizumab in patients with multiple sclerosis: a retrospective review Evaluation of change in morphine equivalent daily dose (MEDD) after pharmacist intervention for veterans prescribed high dose opioids	Dillon Schenkel (PGY-1) St. Luke's Health System Madeline Weltzin (PGY-1) Saint Alphonsus Regional Medical Center Alex Lystrup (PGY-2 Pharmacotherapy) Idaho State University Audrey Nordness (PGY-1) Kootenai Health Lauren Zupsic (PGY-2 Oncology) St. Luke's Cancer Institute Erin Berry (PGY-1) Eastern Idaho Regional Medical Center Hailey Hossfeld (PGY-1) St. Luke's Magic Valley Medical Center Kristin Halla (PGY-2 Am Care) Boise VA Medical Center
8:30 AM – 9:00 AM 9:00 AM – 9:30 AM 9:30 AM – 10:00 AM 10:00 AM – 10:30 AM 10:30 AM – 11:00 AM 11:00 AM – 11:30 AM	The use of a procalcitonin-guided algorithmic approach to de-escalation of antibiotics of septic patients in the ICU Image: Comparison of a vancomycin area under the curve (AUC) dosing strategy Evaluation of a vancomycin area under the curve (AUC) dosing strategy Assessing patient expectations of pharmacist capabilities and knowledge Feasibility of a chronic obstructive pulmonary disease (COPD) inhaler program in reducing hospital readmissions Improving the safety and efficiency of the chemotherapy process in an inpatient setting Establishing a glycemia management protocol for non-critically ill hospitalized patients with diabetes: a quality improvement initiative Evaluation of the use of ocrelizumab and natalizumab in patients with multiple sclerosis: a retrospective review Evaluation of change in morphine equivalent daily dose (MEDD) after pharmacist intervention for veterans prescribed high dose opioids	Dillon Schenkel (PGY-1) St. Luke's Health System Madeline Weltzin (PGY-1) Saint Alphonsus Regional Medical Center Alex Lystrup (PGY-2 Pharmacotherapy) Idaho State University Audrey Nordness (PGY-1) Kootenai Health Lauren Zupsic (PGY-2 Oncology) St. Luke's Cancer Institute Erin Berry (PGY-1) Eastern Idaho Regional Medical Center Hailey Hossfeld (PGY-1) St. Luke's Magic Valley Medical Center Kristin Halla (PGY-2 Am Care)
8:30 AM – 9:00 AM 9:00 AM – 9:30 AM 9:30 AM – 10:00 AM 10:00 AM – 10:30 AM 10:30 AM – 11:30 AM 11:00 AM – 11:30 AM 11:30 AM – 12:00 PM 12:00 PM - 1:30 PM	The use of a procalcitonin-guided algorithmic approach to de-escalation of antibiotics of septic patients in the ICU Evaluation of a vancomycin area under the curve (AUC) dosing strategy Assessing patient expectations of pharmacist capabilities and knowledge Feasibility of a chronic obstructive pulmonary disease (COPD) inhaler program in reducing hospital readmissions Improving the safety and efficiency of the chemotherapy process in an inpatient setting Establishing a glycemia management protocol for non-critically ill hospitalized patients with diabetes: a quality improvement initiative Evaluation of the use of ocrelizumab and natalizumab in patients with multiple sclerosis: a retrospective review Evaluation of change in morphine equivalent daily dose (MEDD) after pharmacist intervention for veterans prescribed high dose opioids 60-minute Break	Dillon Schenkel (PGY-1) St. Luke's Health System Madeline Weltzin (PGY-1) Saint Alphonsus Regional Medical Center Alex Lystrup (PGY-2 Pharmacotherapy) Idaho State University Audrey Nordness (PGY-1) Kootenai Health Lauren Zupsic (PGY-2 Oncology) St. Luke's Cancer Institute Erin Berry (PGY-1) Eastern Idaho Regional Medical Center Hailey Hossfeld (PGY-1) St. Luke's Magic Valley Medical Center Kristin Halla (PGY-2 Am Care) Boise VA Medical Center Taylor Smith (PGY-1)
8:30 AM – 9:00 AM 9:00 AM – 9:30 AM 9:30 AM – 10:00 AM 10:00 AM – 10:30 AM 10:30 AM – 11:30 AM 11:00 AM – 11:30 AM 11:30 AM – 12:00 PM 12:00 PM - 1:00 PM	The use of a procalcitonin-guided algorithmic approach to de-escalation of antibiotics of septic patients in the ICU Image: Comparison of a vancomycin area under the curve (AUC) dosing strategy Assessing patient expectations of pharmacist capabilities and knowledge Image: Comparison of a vancomycin area under the curve (AUC) dosing strategy Assessing patient expectations of pharmacist capabilities and knowledge Image: Comparison of a vancomycin area under the curve (AUC) dosing strategy Feasibility of a chronic obstructive pulmonary disease (COPD) inhaler program in reducing hospital readmissions Improving the safety and efficiency of the chemotherapy process in an inpatient setting Establishing a glycemia management protocol for non-critically ill hospitalized patients with diabetes: a quality improvement initiative Improving the safety and antalizumab in patients with multiple sclerosis: a retrospective review Evaluation of the use of ocrelizumab and natalizumab in patients with multiple sclerosis: a retrospective review Improving the equivalent daily dose (MEDD) after pharmacist intervention for veterans prescribed high dose opioids Outcomes associated with the system-wide transition from activated partial thromboplastin time to antifactor-Xa for the management of unfractionated heparin infusions	Dillon Schenkel (PGY-1) St. Luke's Health System Madeline Weltzin (PGY-1) Saint Alphonsus Regional Medical Center Alex Lystrup (PGY-2 Pharmacotherapy) Idaho State University Audrey Nordness (PGY-1) Kootenai Health Lauren Zupsic (PGY-2 Oncology) St. Luke's Cancer Institute Erin Berry (PGY-1) Eastern Idaho Regional Medical Center Hailey Hossfeld (PGY-1) St. Luke's Magic Valley Medical Center Kristin Halla (PGY-2 Am Care) Boise VA Medical Center Taylor Smith (PGY-1) St. Luke's Health System
8:30 AM – 9:00 AM 9:00 AM – 9:30 AM 9:30 AM – 10:00 AM 10:00 AM – 10:30 AM 10:30 AM – 11:30 AM 11:00 AM – 11:30 AM 11:30 AM – 12:00 PM 12:00 PM - 1:30 PM 1:30 PM – 2:00 PM	The use of a procalcitonin-guided algorithmic approach to de-escalation of antibiotics of septic patients in the ICU Evaluation of a vancomycin area under the curve (AUC) dosing strategy Assessing patient expectations of pharmacist capabilities and knowledge Feasibility of a chronic obstructive pulmonary disease (COPD) inhaler program in reducing hospital readmissions Improving the safety and efficiency of the chemotherapy process in an inpatient setting Establishing a glycemia management protocol for non-critically ill hospitalized patients with diabetes: a quality improvement initiative Evaluation of the use of ocrelizumab and natalizumab in patients with multiple sclerosis: a retrospective review Evaluation of change in morphine equivalent daily dose (MEDD) after pharmacist intervention for veterans prescribed high dose opioids Outcomes associated with the system-wide transition from activated partial thromboplastin time to antifactor-Xa for the management of unfractionated heparin infusions Impact of clinical pharmacist intervention in VKA therapy with time in therapeutic range less than sixty-five percent Development and implementation of a revised patient acuity scoring tool: an analysis of pharmacist	Dillon Schenkel (PGY-1) St. Luke's Health System Madeline Weltzin (PGY-1) Saint Alphonsus Regional Medical Center Alex Lystrup (PGY-2 Pharmacotherapy) Idaho State University Audrey Nordness (PGY-1) Kootenai Health Lauren Zupsic (PGY-2 Oncology) St. Luke's Cancer Institute Erin Berry (PGY-1) Eastern Idaho Regional Medical Center Hailey Hossfeld (PGY-1) St. Luke's Magic Valley Medical Center Kristin Halla (PGY-2 Am Care) Boise VA Medical Center Taylor Smith (PGY-1) St. Luke's Health System Catherine Smith (PGY-1) Boise VA Medical Center
8:30 AM – 9:00 AM 9:00 AM – 9:30 AM 9:30 AM – 10:00 AM 10:00 AM – 10:30 AM 10:30 AM – 11:30 AM 11:00 AM – 11:30 AM 11:30 AM – 12:00 PM 12:00 PM - 1:30 PM	The use of a procalcitonin-guided algorithmic approach to de-escalation of antibiotics of septic patients in the ICU Evaluation of a vancomycin area under the curve (AUC) dosing strategy Assessing patient expectations of pharmacist capabilities and knowledge Feasibility of a chronic obstructive pulmonary disease (COPD) inhaler program in reducing hospital readmissions Improving the safety and efficiency of the chemotherapy process in an inpatient setting Establishing a glycemia management protocol for non-critically ill hospitalized patients with diabetes: a quality improvement initiative Evaluation of the use of ocrelizumab and natalizumab in patients with multiple sclerosis: a retrospective review Evaluation of change in morphine equivalent daily dose (MEDD) after pharmacist intervention for veterans prescribed high dose opioids Outcomes associated with the system-wide transition from activated partial thromboplastin time to antifactor-Xa for the management of unfractionated heparin infusions Impact of clinical pharmacist intervention in VKA therapy with time in therapeutic range less than sixty-five percent Development and implementation of a revised patient acuity scoring tool: an analysis of pharmacist interventions and workflow Evaluation of analysis of pharmacist	Dillon Schenkel (PGY-1) St. Luke's Health System Madeline Weltzin (PGY-1) Saint Alphonsus Regional Medical Center Alex Lystrup (PGY-2 Pharmacotherapy) Idaho State University Audrey Nordness (PGY-1) Kootenai Health Lauren Zupsic (PGY-2 Oncology) St. Luke's Cancer Institute Erin Berry (PGY-1) Eastern Idaho Regional Medical Center Hailey Hossfeld (PGY-1) St. Luke's Magic Valley Medical Center Kristin Halla (PGY-2 Am Care) Boise VA Medical Center Taylor Smith (PGY-1) St. Luke's Health System Catherine Smith (PGY-1) Boise VA Medical Center Morgan Messmer (PGY-1) St. Luke's Health System
8:30 AM – 9:00 AM 9:00 AM – 9:30 AM 9:30 AM – 10:00 AM 10:00 AM – 10:30 AM 10:30 AM – 11:30 AM 11:00 AM – 11:30 AM 11:30 AM – 12:00 PM 12:00 PM - 1:30 PM 1:30 PM – 2:00 PM	The use of a procalcitonin-guided algorithmic approach to de-escalation of antibiotics of septic patients in the ICU Evaluation of a vancomycin area under the curve (AUC) dosing strategy Assessing patient expectations of pharmacist capabilities and knowledge Feasibility of a chronic obstructive pulmonary disease (COPD) inhaler program in reducing hospital readmissions Improving the safety and efficiency of the chemotherapy process in an inpatient setting Establishing a glycemia management protocol for non-critically ill hospitalized patients with diabetes: a quality improvement initiative Evaluation of the use of ocrelizumab and natalizumab in patients with multiple sclerosis: a retrospective review Evaluation of change in morphine equivalent daily dose (MEDD) after pharmacist intervention for veterans prescribed high dose opioids Outcomes associated with the system-wide transition from activated partial thromboplastin time to antifactor-Xa for the management of unfractionated heparin infusions Impact of clinical pharmacist intervention in VKA therapy with time in therapeutic range less than sixty-five percent Development and implementation of a revised patient acuity scoring tool: an analysis of pharmacist interventions and workflow	Dillon Schenkel (PGY-1) St. Luke's Health System Madeline Weltzin (PGY-1) Saint Alphonsus Regional Medical Center Alex Lystrup (PGY-2 Pharmacotherapy) Idaho State University Audrey Nordness (PGY-1) Kootenai Health Lauren Zupsic (PGY-2 Oncology) St. Luke's Cancer Institute Erin Berry (PGY-1) Eastern Idaho Regional Medical Center Hailey Hossfeld (PGY-1) St. Luke's Magic Valley Medical Center Kristin Halla (PGY-2 Am Care) Boise VA Medical Center Taylor Smith (PGY-1) St. Luke's Health System Catherine Smith (PGY-1) Boise VA Medical Center Morgan Messmer (PGY-1) St. Luke's Health System Aara Hall (PGY-1)
8:30 AM – 9:00 AM 9:00 AM – 9:30 AM 9:30 AM – 10:00 AM 10:00 AM – 10:30 AM 10:30 AM – 11:30 AM 11:00 AM – 11:30 AM 11:30 AM – 12:00 PM 12:00 PM – 1:00 PM 1:30 PM – 2:00 PM 2:00 PM – 2:30 PM	The use of a procalcitonin-guided algorithmic approach to de-escalation of antibiotics of septic patients in the ICU Evaluation of a vancomycin area under the curve (AUC) dosing strategy Assessing patient expectations of pharmacist capabilities and knowledge Feasibility of a chronic obstructive pulmonary disease (COPD) inhaler program in reducing hospital readmissions Improving the safety and efficiency of the chemotherapy process in an inpatient setting Establishing a glycemia management protocol for non-critically ill hospitalized patients with diabetes: a quality improvement initiative Evaluation of the use of ocrelizumab and natalizumab in patients with multiple sclerosis: a retrospective review Evaluation of change in morphine equivalent daily dose (MEDD) after pharmacist intervention for veterans prescribed high dose opioids Outcomes associated with the system-wide transition from activated partial thromboplastin time to antifactor-Xa for the management of unfractionated heparin infusions Impact of clinical pharmacist intervention in VKA therapy with time in therapeutic range less than sixty-five percent Development and implementation of a revised patient acuity scoring tool: an analysis of pharmacist interventions and workflow Evaluation of biosimilar use in patients treated in a large health system: infliximab-abda, epoetin alfa-epbx, and tbo-filgrastim	Dillon Schenkel (PGY-1) St. Luke's Health System Madeline Weltzin (PGY-1) Saint Alphonsus Regional Medical Center Alex Lystrup (PGY-2 Pharmacotherapy) Idaho State University Audrey Nordness (PGY-1) Kootenai Health Lauren Zupsic (PGY-2 Oncology) St. Luke's Cancer Institute Erin Berry (PGY-1) Eastern Idaho Regional Medical Center Hailey Hossfeld (PGY-1) St. Luke's Magic Valley Medical Center Kristin Halla (PGY-2 Am Care) Boise VA Medical Center Taylor Smith (PGY-1) St. Luke's Health System Catherine Smith (PGY-1) Boise VA Medical Center Morgan Messmer (PGY-1) St. Luke's Health System Aara Hall (PGY-1) St. Luke's Health System
8:30 AM – 9:00 AM 9:00 AM – 9:30 AM 9:30 AM – 10:00 AM 10:00 AM – 10:30 AM 10:30 AM – 11:30 AM 11:00 AM – 11:30 AM 11:30 AM – 12:00 PM 12:00 PM – 1:00 PM 1:30 PM – 2:00 PM 2:00 PM – 2:30 PM	The use of a procalcitonin-guided algorithmic approach to de-escalation of antibiotics of septic patients in the ICU Evaluation of a vancomycin area under the curve (AUC) dosing strategy Assessing patient expectations of pharmacist capabilities and knowledge Feasibility of a chronic obstructive pulmonary disease (COPD) inhaler program in reducing hospital readmissions Improving the safety and efficiency of the chemotherapy process in an inpatient setting Establishing a glycemia management protocol for non-critically ill hospitalized patients with diabetes: a quality improvement initiative Evaluation of the use of ocrelizumab and natalizumab in patients with multiple sclerosis: a retrospective review Evaluation of change in morphine equivalent daily dose (MEDD) after pharmacist intervention for veterans prescribed high dose opioids Outcomes associated with the system-wide transition from activated partial thromboplastin time to antifactor-Xa for the management of unfractionated heparin infusions Impact of clinical pharmacist intervention in VKA therapy with time in therapeutic range less than sixty-five percent Development and implementation of a revised patient acuity scoring tool: an analysis of pharmacist interventions and workflow Evaluation of biosimilar use in patients treated in a large health system: infliximab-abda, epoetin alfa-epbx, and tbo-filgrastim Optimization of automated dispensing cabinet medication overrides by implementing override restrictions	Dillon Schenkel (PGY-1) St. Luke's Health System Madeline Weltzin (PGY-1) Saint Alphonsus Regional Medical Center Alex Lystrup (PGY-2 Pharmacotherapy) Idaho State University Audrey Nordness (PGY-1) Kootenai Health Lauren Zupsic (PGY-2 Oncology) St. Luke's Cancer Institute Erin Berry (PGY-1) Eastern Idaho Regional Medical Center Hailey Hossfeld (PGY-1) St. Luke's Magic Valley Medical Center Kristin Halla (PGY-2 Am Care) Boise VA Medical Center Taylor Smith (PGY-1) St. Luke's Health System Catherine Smith (PGY-1) St. Luke's Health System Aara Hall (PGY-1) St. Luke's Health System Aara Hall (PGY-1) St. Luke's Health System
